An efficient approach for determining a price is to ship out a survey to your present customers. If these prospects have already purchased an e-book from you, ask for his or her opinion when it comes to price. Do this by making a sales web page for the new ebook, but do not embody a value on that page. Another strategy is to check out costs by creating a number of duplicate sales pages with totally different costs on each page. Ensure that your sales copy is strictly the same on each web page, and consists of your promoting-handle sentence. Then determine for each page the conversion ratio between guests to your site and sales of your book. It will inform you what your optimum worth is.

In the end, in the event you've written a e-book that solves a downside or presents a new approach, your book will herald both traffic and profits.
